

Mohammad Shah Hussain

Frontend Developer

Frontend Developer skilled in HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, and Git. Passionate about building responsive, user-friendly web applications with a focus on performance and clean UI/UX. Strong in debugging, API integration, and component-based development. **Basic knowledge of React** and eager to expand expertise in modern front-end frameworks. Seeking an opportunity to apply my skills and grow in a collaborative team environment.
